Procedure for substitutions

For normal substitutions

A team wishing to make a substitution may do so only during a break in play as deemed by the referee.

The team wishing to make the substitution must present to the 4th official a slip of paper which clearly shows the number and the name of the player going off and the number and name of the player going on. Failure to present this to the 4th official will mean that no substitution will be permitted by the match officials.

The team wishing to make the substitution must ensure that the player who is coming on is within the substitution zone before the linesman notifies the referee that a substitution is to be made.

A substitute will not be permitted on to the field of play until the player coming off is within 10 metres of the side-line or in the case of player being stretchered of when the stretcher has fully crossed the side-line

For temporary (blood substitutions)

A temporary substitution may only be made after the required signal has been given by the referee.

A team wishing to make a temporary substitution must present to the 4th official a slip of paper which clearly shows the number and the name of the player going off and the number and name of the player going on.
